Report of the School District
IN THE
TOWN OF DANBURY, N. H.
FOR THE
Year Ending January 31, 1918

Report of School Board

It is with pleasure we submit our report to you at the close of another fiscal year. Some of the difficult problems of the past have been temporarily ironed out, viz: That of conducting so many separate schools of only a few pupils each. It was an experiment to be sure, to consolidate these schools, but has proven to be a success, however, thus giving us the advantage of securing experienced teachers for all schools, and at the same time lessening the expense of the district in repairs and fuel. The spring term of school was as much a success as is possible to obtain in a country town. The fall term has not met with the same degree of satisfaction. Some of the difficulties have been beyond the power of the school board to control. Winter came upon us with all its vengeance at an early date and continued severe until the close of the schools, which made it extremely difficult for small children to attend regularly. We have been fortunate in securing the services of teachers holding state certificates. They are as follows: Misses Cora I. Sargent, Eva Perkins, Jackman and Mrs. Belle Ball. These teachers have drawn two dollars per week from the state. The high school students from the town

who have had the benefit of free tuitions are, Agnes Litchfield, Cleora Wentworth, Helen Ford, Dwight Perkins, Robert Stuart, Dorothy Knapp, Harriet Ford, Annabell Peaslee, Lewis Gifford, Clarence Huntoon, Ray Sargent, Lillian Ford, Leland Currier and Clyde Lawrence. The number of high school students will be somewhat decreased the present year. It has been the aim of the school board to place experienced teachers in all the schools, ladies who are thoroughly qualified for the position they are filling, and who will not only develop a child's mental capacity, but whose influence will be an inspiration to any boy or girl. The school houses are all in a comfortable and respectable condition, and ready for state officer's inspection any time.

There are many problems to work out before the schools will be at the very highest standard of efficiency. It takes time to put into practice all the modern improvements the state department would have us adopt, and not all their suggestions are practical in our schools. There is much to consider and we have done the best we could, and trust the result is entirely satisfactory to those who are vitally interested. The school buildings are in good repair, the teachers are paid and there is a snug little sum in the treasury to begin the next term of school with. We thank parents and teachers for their co-operation, and for the patience and charity that has always been manifest.

Respectfully submitted,

EMMA A. KNAPP,	} School Board
